## 01. What is DreamsCT [Dreams Come True] game?

DreamsCT [Dreams Come True] is one of the Metacon projects. DreamsCT inherits the spirit and wisdom of its ancestors from the past, enabling many people's dreams to come true. In the past, our ancestors had a tradition of living by helping each other through hard work, called *Pumat*. In addition, there are private cooperatives for mutual aid that can generate high interest and high income through the auction method, such as the winning bid system. DreamsCT builds a blockchain-based game that merges the spirit and wisdom of our ancestors with modern lottery games. It is a game where you guess 6 numbers out of 45 numbers, just like the lottery. If you apply for the General Round more than 4 times, you will be able to apply for the Golden Round. The Golden Round runs every other week and participants can participate once a day so that DreamsCT excludes speculative activities. The smart contract-based method through blockchain is designed to prevent forgery or falsification under any circumstances. In addition, DreamsCT's winning numbers use Donghaeung Lottery's lotto numbers to prevent manipulation controversies in advance, providing a fair and trustworthy gaming environment for all participants. DreamsCT will be operated as an environment where all participants can make their Dreams Come True. **CONUN does not acquire a single coin from DreamsCT.** For some people, it will be a dream come true and for others, it will be a source of hope. CONUN hopes that this will be such a game for the participants.

DreamsCT's 20th round is the Golden Round. From now on, Golden Rounds will be held every other week.

- \*21st round is General Rd
- \*22nd round is Golden Rd
- \*23rd round is General Rd
- \*24th round is Golden Rd

# 01. What is DreamsCT [Dreams Come True] game?

**01** DreamsCT is a game that can be enjoyed in CONUN's Metacon wallet.

**02** Metacon is a cryptocurrency wallet that does not store or save any personal information.

**03** CONUN only has access to the wallet address of the person who has applied for the game. Even if the applicant wins, we do not know their personal information.

**04** **CONUN does not benefit a single CYCON** from the DreamsCT game.

**05** You can apply for the DreamsCT game once a week with CONUN coins (CYCON) worth 5,000 KRW. This game will be an opportunity for lucky winners to achieve their dreams.

**06** Golden Round runs every other week. You can only participate in the Golden Round if you have applied 4 or more times during the General Round.

**07** The Golden Round applies the unconditional winning rule, so the probability of winning increases to 1/183. If there are many winners, 1/n of prize is applied and given out.

**08** As stated in number 7 above, the probability of winning is greatly increased, so many applicants will be able to win.

CONUN hopes that DreamsCT is a game that will become an opportunity, hope, and where many people can **achieve their dreams**.

## 02. How to participate

1

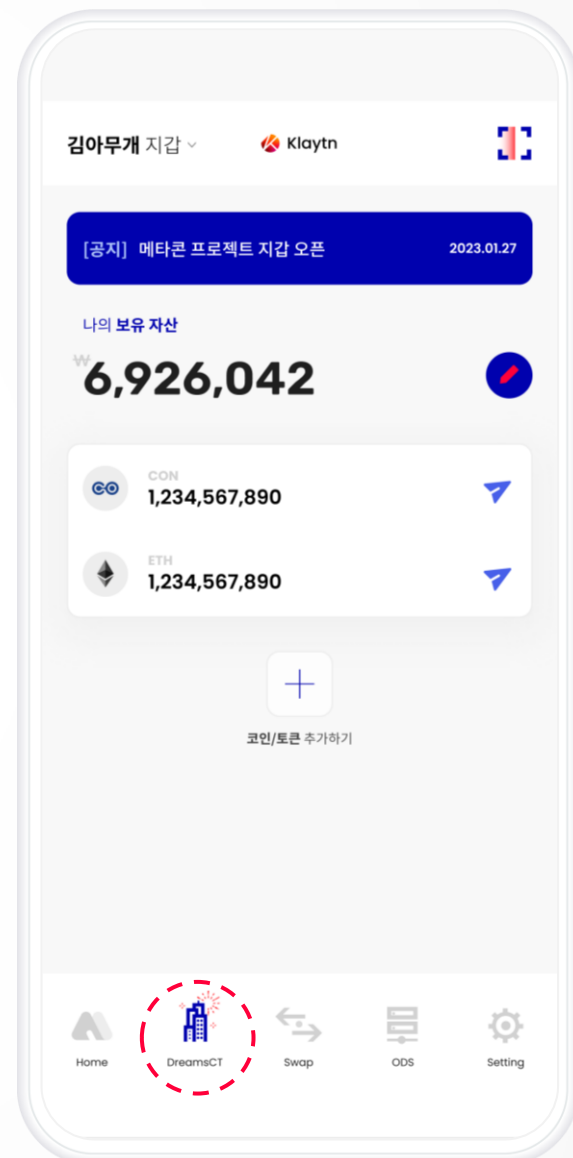

### Install Metacon app

To apply for DreamsCT, install the Metacon app and create or load a wallet.

2

### Click on DreamsCT

After installing the Metacon app, click on DreamsCT on the bottom menu bar.

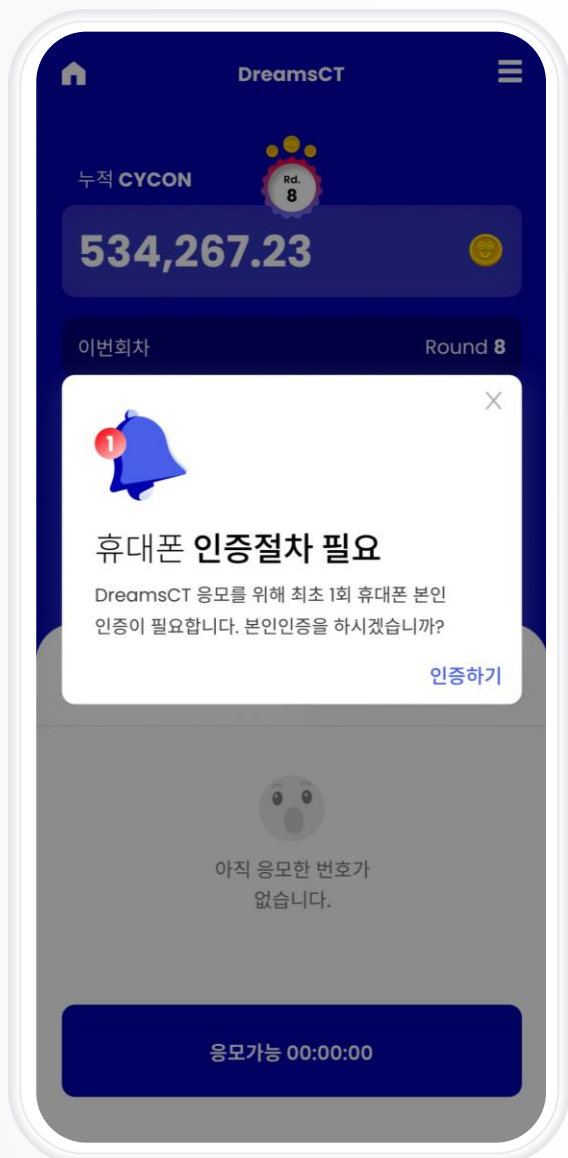

## 02. How to participate

3

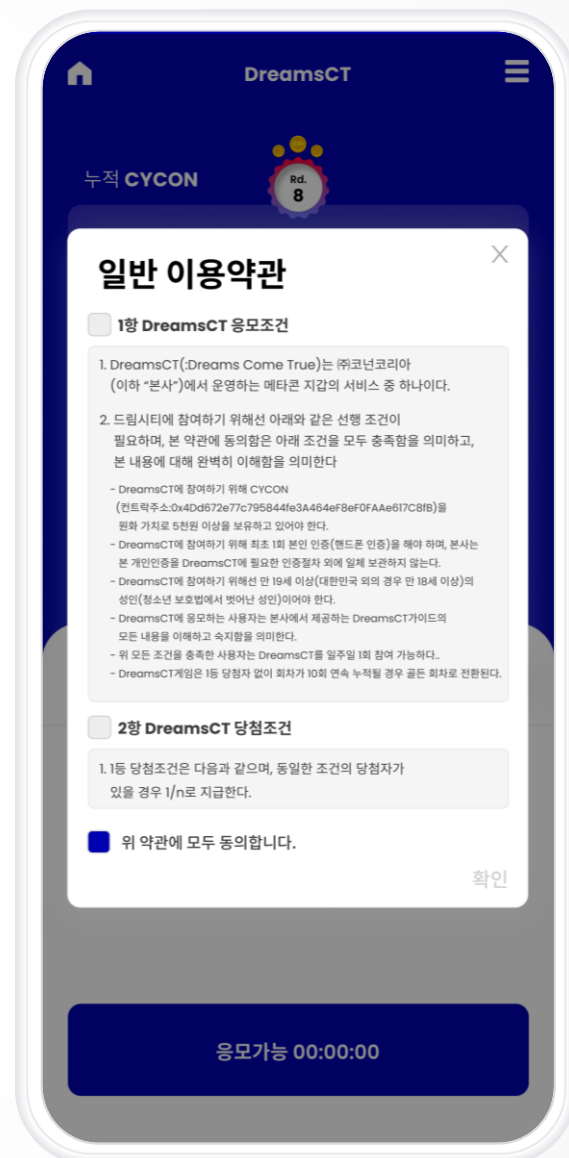

### One-time mobile verification

To apply for DreamsCT, you must verify your mobile phone the first time.

4

### DreamsCT terms of use

Agreeing to the terms of use is required to apply for DreamsCT.

## 02. How to participate

5

### Select application ticket number

The image displays three sequential screenshots of a mobile application interface for selecting application ticket numbers in Round 8. Each screen features a grid of 5 lines (#A to #E) and 10 columns of numbers (1-45). A '자동선택' (Auto-select) button is located at the bottom right of the grid. A '다음' (Next) button is at the bottom of the screen.

- Screen 1 (Manual Selection):** Line #A has the 10th column selected (indicated by a red checkmark). All other columns are empty.
- Screen 2 (Manual Selection):** Lines #A, #B, #C, #D, and #E are fully filled with numbers: #A (6, 9, 29, 30, 33, 44), #B (2, 7, 8, 15, 24, 27), #C (5, 22, 24, 30, 35, 40), #D (11, 22, 33, 40, 42, 44), and #E (6, 9, 29, 30, 33, 44).
- Screen 3 (Auto Selection):** Lines #A and #E are fully filled with numbers. Lines #B, #C, and #D contain asterisks (\*), indicating that the numbers were automatically selected.

Manual/Auto will freely select 30 numbers in 5 lines.  
[You cannot apply unless all 30 numbers in the 5 lines are filled]

## 02. How to participate

8

### Check application history

Application history details can be found at the bottom of the DreamsCT main page and in the purchase details in the menu bar.

### 03. Participation Criteria

To apply for DreamsCT [Dreams Come True], you must meet the following requirements.

Install Metacon wallet app and create a wallet

The Metacon wallet app must be installed on your phone. Start by creating or loading a wallet.

Have CYCON worth more than 5,000 KRW

You must have CYCON worth 5,000 KRW or more in your Metacon wallet. Swap is also possible within the wallet.

Name authentication through phone verification

To start DreamsCT, you must verify your mobile phone once, the first time.

Minors cannot apply

Minors under the age of 20 cannot apply.

Apply once a day, 7 times a week

Only those who meet the four criterias can apply once a day, 7 times a week.

Only users who meet the above criterias can apply for DreamsCT.

\* When a user wins, they can check the winning status through the app and receive the winning CYCON within 7 business days in the wallet they applied for.

# 05. Winning Criteria [ 1. General Round ]

The criteria for winning DreamsCT are the following.  
The order of entry in each group is the priority for winning.

**RoundN** winning number

\*Following numbers are examples

## 1st place

1) If the 6 entered numbers are the same as the 6 winning numbers.

2) If there is no winner in number 1) above, and 6 out of 7 numbers, including the winning number and bonus number, are the same as the 6 numbers you applied for.

3) If there are many winners, 1/N is given.

## 2nd place

1) If the 6 entered numbers are the same as the 5 winning numbers.

2) If there is no winner in number 1) above, and 5 out of 7 numbers, including the winning number and bonus number, are the same as the 5 numbers you applied for.

3) If there are many winners, 1/N is given.

## 05. Winning Criteria [ 1. General Round ]

The criteria for winning DreamsCT are the following.  
The order of entry in each group is the priority for winning.

**RoundN** winning number

\*Following numbers are examples

### 3rd place

1) If the 6 entered numbers are the same as the 4 winning numbers.

2) If there is no winner in number 1) above, and 4 out of 7 numbers, including the winning number and bonus number, are the same as the 4 numbers you applied for.

3) If there are many winners, 1/N is given.

## 05. Winning Criteria

### [ 2. Golden Round – unconditional winning round ]

#### Golden Round is held every other week

The Golden Round is operated every other week, and you can only participate in the Golden Round if you have applied at least 4 times during the General Rounds. **Special rules apply to ensure unconditional winning.** The criteria of the special rules are as follows. If there are many winners, the CYCON will be given to the winners in form of 1/N.

#### Golden Round special rules

##### Golden Round winning rules [Winning Priority]

- 01) If 6 out of 6 entered numbers are the same as the winning numbers.
- 02) If 1) is not applicable :  
If 6 out of 7 numbers, including 6 winning numbers and one bonus number, are the same.
- 03) If 1) and 2) are not applicable :  
If 5 of the 6 entered numbers are the same as the winning numbers.
- 04) If 1), 2) and 3) are not applicable :  
If 5 out of 7 numbers, including 6 winning numbers and one bonus number, are the same.
- 05) If 1), 2), 3) and 4) are not applicable :  
If 4 of the 6 entered numbers are the same as the winning numbers.
- 06) If 1), 2), 3), 4) and 5) are not applicable :  
If 4 out of 7 numbers, including 6 winning numbers and one bonus number, are the same.
- 07) In the Golden Round, there is no 2nd or 3rd place. This is because  
3) above is the criteria for winning the 2nd prize and  
5) above is the same as the criteria for winning 3rd prize.
- 08) If there are 2nd and 3rd place winners, prize will be given out normally and if there is no 1st place winner and it becomes a Golden Round, the 2nd and 3rd place winners will be included in the 1st place cumulative CYCON.
- 09) The Golden Round is operated every other week, and you can only participate in the Golden Round if you have applied at least 4 times during the General Round.

## 05. Winning Criteria [ 3. Receive 1st prize CYCON ]

**01**

For the winners of the golden round, **20%** of the winning CYCON payment is divided every month for **5 months** from the date of winning to stabilize the token price.

**02**

Even if there are multiple winners, the prize can be paid in **two** or more installments to stabilize the token price, and the number of installments does not exceed **five**.

**03**

Golden Round winners will donate **10%** of the winnings. In principle, this donation is made directly from the head office in the name of the head office.

**04**

Agreeing to the above rules are required. If you do not agree, you will not be able to apply for DreamsCT.

## 06. CYCON Distribution

CONUN does not take a single CYCON from the DreamsCT game.

As the game operator, CONUN only operates to ensure that users enjoy the game.

 1st <b>50%</b>	 2nd <b>15%</b>	 3rd <b>5%</b>
 Donation <b>10%</b>	 Burn <b>10%</b>	 Operation <b>10%</b>

**\*Operation:** If there is a winner, it will be operated as a winning CYCON for the next round.

**\*Burn:** Transfer it to the black hole wallet and burn it.

**\*Donation:** Donations are made directly rather than through agents who receive donations. Donation details are updated in real time on the website and Metacon announcements.

## 07. 1st place winning probability

Probability of winning 6 numbers	<b>1 / 8,145,060</b>	
Probability of winning 6 numbers	<b>1 / 1,357,510</b>	Probability includes bonus number
Probability of winning 5 numbers	<b>1 / 35,724</b>	
Probability of winning 5 numbers	<b>1 / 7,145</b>	Probability includes bonus number
Probability of winning 4 numbers	<b>1 / 733</b>	
Probability of winning 4 numbers	<b>1 / 183</b>	Probability includes bonus number

# Thank you
